2. Draw the orthogonal views (front elevation, side elevation and overhead).
3. Draw the orthogonal views.
4. Draw the three main views of these pieces. You must choose the front view you prefer. Do it in your notebook.
5. Draw the 3 main views, taking into account the measurements (in millimetres). Do it in your notebook.
6. Redraw the following pieces using the scale indicated beside them. Indicate their measurements correctly. Do it in your notebook.

A
DRAW AT
SCALE OF 1:2

B
DRAW AT THE
SCALE OF 2:1
8. Redraw these figures to their next scales. Do it in your notebook.

Scale 3 : 1

Scale 1 : 2,5
9. Indicate the measurements of these pieces in their scale 1 : 1. Do it here.
